by a cold. Concertgoers perhaps do not realize that recitals cannot always be postponed. Aside from the matter of the expense, which is not inconsiderable.

the expense, which is not inconsiderable, it is not always easy to secure another date when the simer, especially if she be engaged at the opera, is at liberty. Consequently the recital usually has to take place on the originally chosen date, cold or no cold, and the singer must get through the ordeal as well as possible. Not infrequently, however, a cold is by no means an unmixed evil. The necessity of exercising more than ordinary care in tone production and The necessity of exercising more than ordinary care in tone production and the control of the breath in phrasing operates to the benefit of the singer's art.

Mme. Claussen's voice last evening was wanting in smoothness and clarity of tint and occasionally the hearseness was obtrusive. But seldom has she sung with more repose and closer approach to that dignity of style which belongs to the interpretation of such lyrics as those of Brahms. The four lieder of this master, which constituted the second group on the program, evoked he was for several seasons, and whose admirable accompaniments always pro-vide a rich background for the art of

Norman Johnston, barytone, gave a song recital yesterday afternoon in Acolian Hall. This newcomer revealed some merits which may commend him to the consideration of observant music lovers. He sang songs of varying sentiments and styles with intelligence and with a finish which proved that he had studied each lyric carefully. His phrasing and shading were good. His tone production was generally free, and in the delivery of head tones he showed the kind of skill that many singers seek but fall to find.

EMBASSY SAIL TO-DAY Sir William and Lady Alexander Also on Mauretania.

From the Carthage Press.

Two old Indian arrows, each of which killed a white man on the great plains near Hays, Kan., in 1898, are in the possession of J. L. Bottenfield of this city. The heads of the arrows are of steel, apparently filed from the blades of case knives probably sold to the red men by traders or taken from emigrant trains captured on the plains.

From the Mississippi Valley Magazine.

The State agricultural experiment stations are studying 4,770 specific problems relating to the agricultural industry of the country. Broadly grouped, there are 1,960 projects and dairy products, comprise about one-eighth of the total, leaving three-eighths of

From the Kansas City Times.

I have listened to world adventurers Spin tales of a rousing theme.

And held my breath as they wove again The threads of a vivid dream.

I have marshaled my reason with keen While the spell of their dream

They told of hills in the flaming dawn, Of nights when they galloped the plain. When the song in their hearts was a trumpet blast
That rang with the hope of gain.
The lure of their rusting blades to-day
Still gleams like a hungry knife,
Though the eager edge of their strength

How much did I know of life!

And I wonder if that is life! They have boasted of dice with a reckless When their winnings were hard to hold,

Or the turn of the cards when a single

Meant more than the loss of gold :

Of giving their all to a luckless Who, fighting, fell in the strife And it wasn't the giving they m I have listened at length to their bantar bold

hold And swallowed their tongue's parade, When their eyes replied and their pulse beat high To the glance of a comely maid, it wasn't the paint or Or the love that crowns n wife.
But the quest of it all that holds them

So I know that the quest is life! Lowe W. War

day, preceded by showers in the early morning; to-morrow fair, moderate tem-perature, moderate variable winds, becoming south and southeast.

For New Jersey—Fair to-day and tomorrow, moderate ten perature, moderate southwet winds.

For Northern New England—Cloudy.

with showers to-day; to-morrow fair, moderate temperature, gentle variable For Southern New England—Cloudy to-day, pregaded by showers in early morning; to-morrow fair, moderate tem-perature, gentle variable winds.

THE WEATHER.

For Eastern New York-Cloudy to-day, preceded by showers in the early

For Western New York-Generaly fair and cooler to-day; to-morrow fair, gentle variable winds. WASHINGTON, Nov. 6.—The Western storm has moved slowly northeastward and its center is now north of Minnesota. Within the last twenty-four hours its disturbance has been attended by showers in the Ohio valley, the Atlantic States north of Virginia and in the region of the great lakes, and snow and rain in the Dakotas and Minnesota. Another storm is aproaching the North Pacific coast attended by strong winds and gales and by rains in Washington, Oregon and northern California. The temperature has risen in the middle Atlantic and south Atlantic States, and it has fallen in the Mississippi and lower

lantic and south Atlantic States, and it has fallen in the Mississippi and lower Chio valleys and the upper lake region. Temperatures remain above normal over and east of the Mississippi valley and below normal over the Rocky Mountain and plateau regions.

In the New England States the weather will be upperfiled and shower. In the New England States the weather will be unsettled and showery to-morrow and fair Wednesday, with moderate temperature. In the middle Atlantic States the weather will be geaerally fair to-morrow and Wednesday, with a continuation of moderate temperature. In the south Atlantic and East Gulf States there will be local showers to-morrow and fair Wednesday without material change in temperature. In Tennessee, Ohio Valley and the lower lake region the weather will be fair and cooler.
